Common Core: Smarter Balanced Test

State assessments have changed under Common Core. Come and learn about the new **California Assessment of Student Performance and Progress (CAASPP)** and the **Smarter Balanced Testing**. Please join us for an informative session regarding the new assessments and how you can support your students during testing.

This is a completely new assessment and all parents will benefit from learning more about how it works. We will look at how the testing has changed and see sample test questions. Two sessions are offered.

Spanish translation and childcare will be provided.

Two sessions to choose from for your convenience:
