

**Exec Board Meeting
April 15, 2011**

Attendance: Christy Scadden, Patty Ladd, April Dorman, Julie Cramer, Marvin Estrin, Vicki Moats, Diana Carburry

Cluster Empowerment:

Framework discussions are proceeding around the cluster. There are still some fears that this is a charter movement. PLHS and Correia are combining. Staff are all suppose to be having meetings before the principals meeting on the 27th.

Correia has submitted for a waiver to keep the current staff. They had 33% staff pink slipped and much professional development has been done that would be lost.

Title 1:

District interested in hosting a cluster meeting about the survey of the roll out of the changes to Title 1. Do we feel anyone would be interested? Will they be open to discussing the money to follow the child? Unless they are open to other ideas, not when this roll out begins, it was agreed that these meetings would not be worth having.

Cluster leaders planning meeting was scheduled for today, and an all clusters meeting for a Saturday in May (TBD). Julie Cramer to attend, which required her to leave immediately and get to Normal Street.

The number of Area Superintendents is being discussed by board of education for next year. The different models being proposed are on board docs.

Next general meeting on the 2nd will have all schools report. Will request through the principals for each school to have something in writing for the executive board to use for the collaboration of all ideas presented.

Exec on May 6th to try and combine all the feedback.

Present this feedback at a special general meeting, May 16th.

May 20th final Exec Meeting, planning for the following years leadership.
