SD STEM Pathways

STEM Careers: Why should your child consider a STEM career and why do they need to start in middle /high school?

Discover

- Why there is a shortage of STEM workers in San Diego?
- What education is required for a STEM career?
- What can your child do now in school and outside of school?

If you cannot come, please send us your name and school, so we know your school is interested and can follow-up :
sd@stempathways.org

You are invited to our organizational meeting

April 9, 2014
7:00 p.m.

SDG&E's
Energy Innovation Center
4670 Clairemont Mesa Blvd.

Meet experts from the workforce and education community who will answer your questions about STEM and a quality STEM education:

Shortage in STEM workforce
San Diego Workforce Partnership
San Diego Biotechnology Employer
San Diego STEM Employer

Post-secondary Education
San Diego and Imperial Valley Electrical Training Centers
UC San Diego CREATE - STEM Network Coordinator
Mesa College School Business & Technology

High School Education
SDUSD MET High School
San Diego County Office of Education

Middle School Education
Old Town Academy
High Tech Middle North County

After your questions about STEM careers and education are answered, you will learn about local programs currently being offered. We will be sharing tools with you to take back to your school to determine what STEM education is being offered in your school and what you can do as a parent to take that education to the next level. Follow-up meetings will be scheduled with interested parents.

- New School Funding Formula and Accountability

\$10 In Advance
\$20 At the Door
Includes lunch!

It's an exciting time for our kids and our schools!

Have you heard? There's a new school funding law called the LCFF (Local Control Funding Formula). It's a new way for schools to focus on student success.

LCFF requires school districts to involve parents in planning and decision making.
It also:

- Shifts spending decisions from the state to your local school district.
- Requires your school district to focus on the eight key areas that help all students succeed.
- Provides extra funding for students with greater challenges.
- Gives your district more flexibility for how to spend its money to improve local schools.

LCFF is a huge opportunity for parents to shape the vision for your children's education and make it happen!

Get involved now!

- Find out what your school district is doing to engage parents and share your ideas directly with administrators and school board members. Attend a meeting or volunteer to serve on a committee.
- Talk with your children's teachers and principal about the new law. Talk with other parents and connect with your local PTA.
- Learn more about the eight key areas of the Local Control and Accountability Plan (LCAP) and how they can help your child succeed. Check out more resources at www.capta.org.

Your voice matters – join the conversation!
