

**Proudly
Presents**

**For Navy EFMP
Families**

The Navy Child and Youth Programs has partnered with LRP Publications to bring you access to **Special Ed Connection**® in an effort to provide resources to parents of students with disabilities. **Special Ed Connection**® is a web-based resource for parents as their child enters, progresses through and exits the world of special education requirements -- so parents have a clear understanding of what special education is and how it works.

With **Special Ed Connection**® you'll be able to instantly locate proven strategies, helpful tools, special education case law, federal statutes/regulations and more!

Here are highlights of just a few of the many components that will be made available for your use, due to this new partnership:

Smart Starts – The perfect starting point when you need to familiarize yourself with specific special education topics such as IEP basics and Parental Involvement.

Special Ed Online Dictionary – Provides straightforward definitions of more than 1,400 widely used terms which enhances dialogue about special education issues.

News, Articles and Updates – Stay current on newsworthy events in the special education community. It's your electronic newspaper dedicated to keeping you informed and gives best practices from special education experts.

Special Ed Round-Ups – Provide you with a way to obtain best-practice guidance and gain access to valuable resources on a host of important special education issues.

Free Training Available

THURSDAY, MAY 15, 2014, 6:00 PM

Point Loma Cluster Schools
Location: Dewey Elementary School Auditorium
3251 Rosecrans St, San Diego, CA 92110
